About Me

As a dedicated Computer Science and Engineering graduate, I seek opportunities to apply my strong foundation in computer science principles and engineering fundamentals. I am eager to connect with professionals, mentors, and industry experts to collaborate and contribute to meaningful projects.

Education

2019

SSLC with percentage of 81

St.francis D'Assisi Mat.Hr.sec School, Tindivanam,Villupuram

2021

HSC with Percentage of 88

Shanthosh Vidyalaya Mat.Hr,Sec School, Tambaram,chennai

2021 - 2025

B.E in Computer Science and Engineering with CGPA of 8.0

G.K.M College of Engineering and Technology, chennai-63

Projects

Email Spam Classifier

This is a Python application that demonstrates how to build a simple email classifier using a Multinomial Naive Bayes classifier and create a user-friendly graphical user interface (GUI) with tkinter. The classifier is trained on a dataset of emails labeled as either "ham" (non-spam) or "spam."

Gender and Age detector using OpenCV

This project performs real-time age and gender detection on a given video or webcam feed using OpenCV's deep learning module. It utilizes pre-trained models for face detection, age estimation, and gender classification.
